ENGLISH

I
O God of all creation
Bless this our land and nation
Justice be our shield and defender
May we dwell in unity
Peace and liberty
Plenty be found within our borders.

II
Let one and all arise
With hearts both strong and true
Service be our earnest endeavour
And our homeland of Kenya
Heritage and splendour
Firm may we stand to defend.

III
Let all with one accord
In common bond united
Build this our nation together
And the glory of Kenya
The fruit of our labour
Fill every heart with thanksgiving.

BRIEF HISTORY OF THE NAIROBI NATIONAL POLYTECHNIC

The Nairobi National Polytechnic derives its history as far back as the year 1951 when it started as “Modern High School”, catering predominantly for the Asian community residents in the neighbourhood. Though a secondary school, the curriculum offered at the time had a bias towards the inculcation of vocational skills, which encompassed Mechanical Engineering and Carpentry & Joinery. In 1953, the name of the school was changed to Technical High School and the Cambridge School Certificate Examination was first taken in 1954.

At independence and in the spirit of the Ominde Educational Commission of 1964, the school opened its doors to all races. The curriculum continued to emphasis on Technical Education and was expanded to include Plant Mechanical, Woodwork, Electrical and Motor Vehicle mechanics skills. Both ‘O’ and ‘A’ level classes were accommodated.

With the implementation of the Mackay report in 1984, all Technical High Schools in the country were converted to Technical Training Institutes to admit and equip high school leavers with vocational skills. Nairobi Technical Training Institute came into being and initially offered courses at artisan level. These courses comprised General Fitter, Welding and Fabrication, Carpentry and Joinery, Electrical Installation Motor Vehicle Mechanics and Business Studies.

After an appraisal of the Institute, Craft courses were introduced in 1988 and these included Mechanical Engineering, Electrical Installation , Motor Vehicle Mechanics, Science Laboratory Technology, Supplies Management and KATC. Enrolment into Carpentry and Joinery continued to dwindle and the course was eventually phased out and replaced with Garment Making in 1995.

Applied Biology was launched in 1995 as the first diploma level program. This marked the beginning of the introduction of a wide array of programs in various fields at Diploma level, the latest being Food and Beverage, Pharmacy and Information Communication Technology.

The insitute was upgraded to the status of a National Polytechnic in February 2025.

The Polytechnic is registered vide Certificate of Registration and legal order number 34 of 2025.

VISION, MISSION & MANDATE

OUR VISION

A Global Leader in Technical, Vocational Training Research and innovation.

OUR MISSION

To Provide Competent Graduates in Technical, Vocational Research and Innovation for the Global Market.

OUR MANDATE

To Provide Technical and Vocational Education and Training that focus on Skills Development, Curriculum Development, Certification, Industry Partnerships, Research, and Lifelong Learning as Contained in the Technical and Vocational Education and Training Act, 2013.

The Nairobi National Polytechnic is a public tertiary institution under the Ministry of Education, State Department of Vocational and Technical Training. The Polytechnic receives full support from the Government through grants, training equipment and personnel.

The Government has continually funded infrastructure development in various fields including Health and Applied Sciences, which is our Centre of Excellence. Currently the Polytechnic is expanding existing Science laboratories to accommodate the ultra-modern equipment received from African Development Bank (ADB) through the GOK.

In addition, it has also funded the construction of a new Information Communication Technology Centre which is equipped with modern training facilities. In collaboration with the government of the Netherlands, the Directorate is undertaking an intensive training for lecturers and refurbishment of engineering departments so that they can offer market driven courses using modern equipment and technology.

The government has funded the construction of Engineering Workshops and Laboratories under the Economic Stimulus Implementation Programme which will help improve on the Engineering Training Services for the realization of Vision 2030.

The Polytechnic is registered with the Kenya Universities and Colleges Central Placement Services (KUCCPS) which places students for various Diploma courses offered in the Institute. Upon placement, the Institute issues joining instructions to the successful applicants. Applications are sent directly to the placement body through KUCCPS website: (<https://student.kuccps.net/>)

The Ministry of Education has approved training in Higher National Diploma in the following courses: HND in Human Resource Management, HND in Food Science Technology (Quality control) and HND in Electrical Engineering (Power Option)

The Polytechnic operates under a Quality Management System (QMS) that has enabled maintenance of high levels of performance. This has led to the Certification on **ISO 9001:2015** Quality Standards by the Kenya Bureau of Standards.

VISION, MISSION & MANDATE

The Polytechnic has established collaboration with German Agency for International Cooperation (GIZ), the University of Nairobi in the area of Health and Applied Sciences in capacity building for the teaching staff, Training partnership with Samsung Electronics through Samsung Engineering Academy for the training of Electrical and Electronic Engineering Diploma students and Training of Solar PV Technicians in collaboration with Kenya Renewable Energy Association (KERECA) and Japan International Cooperation Agency (JICA)

Levels of Training: We admit students under three main levels namely;

Level 3 : Entry requirement is usually a KCPE certificate and above. On qualification at this level students can progress to the next level of Artisan certificate.

Level 4 (Artisan Courses): Entry requirement is usually a KCSE Certificate and above. On qualifying at this level students can progress to the next level of Craft Certificate.

Level 5 (Craft Certificate Courses): Minimum entry requirement to these courses is usually a KCSE mean grade D (plain) for Module One and PASS for Module Two. Upon completion of Certificate Courses, students can proceed to Diploma Courses.

Level 6 (Diploma Courses): Entry requirements at this level is usually a KCSE mean grade C- (minus) and different cluster subjects for different courses.

Currently, The Nairobi National Polytechnic has the following departments:

- Administration
- Mechanical and Chemical Engineering
- Health Sciences
- Applied Sciences
- Automotive Engineering
- Electrical and Electronic Engineering
- Information Communication Technology
- Business Studies
- Institutional Management
- Liberal Studies
- Entrepreneurship Education
- Library
- Sports and Recreation
- Industrial Liaisons Office
- Guidance and Counselling
- Research and Development
- Office of Career Services

CHIEF GUEST MESSAGE

It is with immense pride and joy that I congratulate the class of 2025 on this remarkable achievement. Today's ceremony not only celebrates your individual dedication and hard work but also marks a historic milestone for The Nairobi National Polytechnics first graduation since being elevated to national Polytechnic status. This moment is a testament to the collective effort the trainers, students, educators, families, and partners who have all played a vital role in your success.

Graduands, you are the embodiment of our nation's aspirations for a skilled, innovative, and resilient workforce. Your training here has equipped you with more than just theoretical knowledge. Through Technical and Vocational Education and Training (TVET), you have acquired practical skills, critical thinking abilities, and a spirit of adaptability; qualities that are essential in today's fast-changing world.

Globally, education is shifting away from traditional, exam-focused systems towards competency-based approaches that emphasize real-world skills and outcomes. Kenya is at the forefront of this transformation, championing Competency-Based Education and Training (CBET) to ensure that young people like you are ready to meet the demands of modern industries. The introduction of a modular curriculum system beginning May 2025 will provide even greater flexibility, enabling you to enter the workforce earlier and return for further training as you grow in your careers.

The Government is deeply committed to supporting TVET institutions by increasing funding, improving infrastructure, and recruiting qualified trainers. We are also working closely with industry and international partners to modernize training equipment and align programs with current market needs. This collaboration ensures that your education remains relevant, competitive, and globally benchmarked.

I am particularly proud of The Nairobi National Polytechnic's recognition as a Centre of Excellence in Automotive Mechatronics and the active role its students have played in national projects such as the Presidential Affordable Housing initiative. These achievements highlight how TVET is not only meeting industry demands but also contributing directly to Kenya's development.

Graduands, TVET offers you a pathway to economic empowerment and social mobility. Beyond securing jobs, you are positioned to innovate, create opportunities, and drive the country's economic growth. As you step forward, I encourage you to embrace lifelong learning, uphold high standards of professionalism, and lead with integrity and purpose.

Congratulations once again to the Class of 2025. May your future be filled with success, fulfillment, and impactful contributions to our great nation.

Hon. Julius Migosi Ogamba
Cabinet Secretary for Education
Republic of Kenya

PRINCIPAL SECRETARY MESSAGE

It is a great honor to join you in celebrating this landmark occasion the first graduation ceremony since the elevation of Nairobi National Polytechnic from a Technical Training Institute. This milestone marks a moment of pride, not only for the graduands and their families but also for the entire TVET sector. It reflects the growing role of technical and vocational training in shaping Kenya's future and building a skilled, self-reliant generation.

To our graduands, congratulations on reaching this important milestone. You have demonstrated discipline, hard work, and resilience in your training journey. Today, you leave this institution not just with certificates, but with hands-on skills, relevant knowledge, and the ability to respond to the needs of a rapidly evolving world of work. You are joining a generation of innovators, creators, and solution providers.

This graduation is also symbolic of the ongoing transformation in our TVET sector. Nairobi National Polytechnic has been at the forefront of implementing key reforms including the modularized TVET curriculum, which allows flexible learning and career progression. This approach caters for learners at various stages, ensuring that no one is left behind, and that skills can be built progressively.

One of the major advancements in the TVET sector is the Dual Training Policy, launched in 2024. This Policy institutionalizes dual training, blending classroom instruction with industry-based training. Through this model, trainees not only graduate with theory, but with hands-on experience that mirrors real world conditions. The Nairobi National Polytechnic has taken bold steps in implementing this model to ensure that graduates not only possess theoretical knowledge but are also industry-ready.

We also acknowledge the Polytechnic's role in the Recognition of Prior Learning (RPL) initiative. Having assessed over 150 individuals from the SME sector and Affordable Housing projects, the institution is helping the juakali artisans who have gained skills informally or through experience to be formally assessed and certified. This approach promotes inclusivity, dignity of work, and access to lifelong learning.

Innovation, research, and technology integration are critical in ensuring our training remains relevant. The Nairobi National Polytechnic has made commendable strides in developing solutions to real-world problems ranging from climate change mitigation to waste management and pollution control. The institution is also advancing online learning platforms and incorporating smart technologies to enhance training delivery.

Worth noting, is that the Technical, Vocational Education and Training (TVET) has embarked on a journey to mainstream climate action through greening TVET curricular to ensure sustainability of environmental protection. The infusion of green skills in the TVET curriculum is angled at preparing TVET graduates for green jobs and also ensure that the youth are fully prepared to handle the 21st Century challenges.

We recognize the important role played by trainers and staff in making these achievements possible. Your dedication and professionalism are the driving force behind the success of our reforms. To parents and guardians, thank you for trusting us with the responsibility of shaping your sons and daughters into competent professionals.

To the graduands your journey does not end here. The world is changing, and with it comes opportunity. Be bold, be entrepreneurial, and use your skills to innovate, create jobs, and transform communities. Let your competence, creativity, and character be your signature wherever you go.

As the Government, we reaffirm our commitment to expanding access, improving infrastructure, and ensuring that no youth is left behind in the skills revolution.

Congratulations once again. May your journey ahead be successful, meaningful, and impactful. God bless you all.

DR. ESTHER THAARA MUORIA PHD, CBS

PRINCIPAL SECRETARY STATE DEPARTMENT FOR TVET

COUNCIL CHAIR MESSAGE

As we celebrate the achievements of our graduands on this 1st graduation ceremony of this great institution, it gives me great pleasure to say congratulations to all our graduands for this auspicious achievement. A graduation day is a momentous occasion that marks the culmination of hard work, perseverance and dedication. We are therefore honored to join you in marking this year's celebration. We applaud the efforts made by your parents, guardians, family members, trainers, as well as all stakeholders who have played a significant role in your academic journey.

As a Council, we also wish to extend our appreciation to the Ministry of Education for the unwavering support that has been the cornerstone of our progress. Moreso, we are grateful for facilitating the recruitment of new trainers through the Public Service Commission to meet our growing demand for competent human resources. We are happy that their expertise, combined with the mentorship of our existing trainers, has yielded remarkable results as evidenced by the 1,900 graduands before us today.

As a Polytechnic, we thank the Ministry of Education for giving us an opportunity to establish collaborations with like-minded partners to enable us carry out our mandate. The German International Technical Cooperation Agency (GIZ), for instance, is currently supporting the dual training courses in the Automotive Mechatronics and Institutional Management Departments. Indeed, we are grateful to the Ministry and the GIZ for unveiling a State-of-the-Art Automotive Mechatronics workshop that is fully equipped with modern technology. I also wish to recognize the support accorded to the Polytechnic through other partnerships involving several automobile companies, the hospitality industry and Community Based Organizations.

Ladies and gentlemen, The Nairobi National Polytechnic has made remarkable achievements in terms of infrastructure in the past two years. To begin with, a modern tuition block with 15 classrooms and two specialized workshops among others has been put up. In addition, a hospitality complex that is now fully operational, featuring training kitchens, restaurant simulators and conference facilities for both educational and revenue-generating purposes has also been put up.

In an effort to enhance financial resources, The Nairobi National Polytechnic has explored areas of income generating activities. We have a fully equipped driving school and a dress making workshop that caters both external and internal needs of the trainees and trainers. Furthermore, the Applied Science Department has been producing detergents, sanitizers and the most recent being the water purification plant for monetary gains. On greening initiatives, the Polytechnic has taken bold steps in implementing programmes designed to equip trainees with knowledge and skills necessary for the green-market jobs and sustainable practices.

As I conclude, I take this opportunity to thank the management of the Polytechnic, the teaching and non-teaching staff and all other stakeholders for their commitment in walking this journey of training with the graduands, to enable them acquire the skills and competences that we are celebrating today. Once again, congratulations to our graduands.

Thank you and God bless you all.

Mr. Charles A. Kimwomi

Chair of Council

CHIEF PRINCIPAL'S MESSAGE

Today we gather to celebrate a momentous occasion - the inaugural graduation ceremony as a National Polytechnic. This is a testament to the dedication, hard work and unwavering commitment of every person who has contributed to our institution's growth and transformation. This year's graduation theme is **"Empowering Minds, Impacting Lives and Transforming Industries."** To this end, we are much honored to present to you our inaugural 1,900 graduands of the Nairobi National Polytechnic, who have successfully fulfilled the Academic programme requirements for the award of Diploma and Certificates in various disciplines.

I take this earliest opportunity to thank The Ministry of Education who's support has been very instrumental to our infrastructural development. Through strategic investments, we have unveiled a State-of-the-Art Automotive Mechatronics Workshop, well equipped with modern advanced technology. Apart from infrastructure, our human resource has been very instrumental to the advancement of academic excellence at the Polytechnic.

We are profoundly grateful to the Government for the additional trainers recruited through the Public Service Commission. We also thank the Ministry for up-skilling our trainers who have mastered CBET delivery through Ministry-sponsored training programmes in modern pedagogical techniques. These investments and many other capacity building workshops have empowered our trainers to stay ahead of industry needs.

The Nairobi National Polytechnic supports the Government's effort to ensure that the implementation of Competence Based Education and Training (CBET) is achieved, by aligning all courses offered at departmental levels to CBET. In this regard, the institution has initiated Memoranda of Understanding with several automobile companies, the hospitality industry and community based organizations, who have been instrumental in the implementation of dual training. This will ensure that the Polytechnic produces competent technicians fit for the dynamic job market.

It gives me great pleasure to announce that The Nairobi National Polytechnic is fully committed to implement the modularized curricula which has been rolled out by the Ministry of Education with effect from May 2025. This will enable trainees to learn at their pace, focusing more time on the difficult modules, while moving faster through the easier ones. One key benefit of the modularized curriculum is that it will promote personalized, efficient and relevant education, making it more adaptable to diverse learning needs and goals.

I am also happy to report that through the Ministry of Housing, the Polytechnic has collaborated with the Jua Kali Sector, in the provision of skills for the construction of affordable housing within Nairobi region. This has enabled the institution to contribute to the Presidential Affordable Housing Agenda. I also take this opportunity to recognize and appreciate the long-standing partnership that The Nairobi National Polytechnic has had with the GIZ and KFW under Niras, who have been instrumental in providing the technical component of the dual training, as well as funding the infrastructure of the modern Automotive Mechatronics Workshop.

The Nairobi National Polytechnic is registered and licensed as a Recognition for Prior Learning (RPL) Assessment Centre by TVETA. As a Polytechnic, we are committed to offer lifelong learning to the marginalized and the less advantaged individuals in the society, to acquire knowledge, skills and competencies outside the formal school system.

In line with our graduation theme - Empowering Minds, Impacting Lives and Transforming Industries, - The Nairobi National Polytechnic is committed to unlocking the trainees' potential by fostering personal growth, as well as impacting and shaping the future of our future generations and the world at large.

To all the graduands, congratulations for this great achievement. As you go out to the job market, remember that you are the brand ambassadors of this great Institution. Wherever you go, seize every opportunity to enhance your skills and further your studies to higher levels. May God be with you and lead you in all your future endeavours.
